QUALITY OF SERVICE: BILL AND HELENE'S STORY

"When we first learned of the Marion Downs Center we eagerly awaited a place where Bill could get a thorough, professional evaluation for hearing aids. The quality was clearly evident when we first met all of you and it continues as Bill appreciates his new hearing aids.

But, as we became familiar with you we learned that Marion Downs Center is recognized worldwide in improving the lives of children and adults dealing with hearing loss. We appreciate your efforts and want to contribute to your mission."

Thank you to Bill Humphries and Helene Eckstein for sharing your positive experience and supporting our mission.

NEW YEAR RESOLUTION: EMBRACE HEARING HEALTH

It's a new year and making new resolutions can be inspirational!

When was the last time you had a hearing test? Do you work or recreate in loud environments? Do you have family members who have hearing challenges? Consider adding hearing health to your list of resolutions!

Ideally, adults 18 to 40 years old should have a hearing test every 3-5 years. Adults 40 to 60 should have a hearing test every 1 to 3 years. Adults over the age of 60, those with known hearing challenges, and those who are exposed to loud noises should get their hearing tested annually.

Call us at 303-322-1871 or email appointments@mariondowns.org to request an appointment.
