## A LETTER TO OUR FRIENDS

Dear Friends of the Marion Downs Center,

The Marion Downs Center is recognized worldwide for its leadership, progressive innovations, and cutting-edge clinical services. Our mission is to value and promote choices in treatment, communication, and technology for people with hearing loss and their families. Our vision is to improve quality of life through compassionate, multidisciplinary, and high quality services & education.

The roots of what is now the Marion Downs Center began in 1918 when the Denver League of Hard-of-Hearing began providing community support to individuals with hearing loss. In 2015, the Marion Downs Hearing Center merged with the Center for Hearing, Speech, and Language to become the Marion Downs Center (MDC).

The MDC's extraordinary legacy was built through enriching people's lives by providing innovative, caring and high-quality services for people with barriers to communication regardless of financial status.

The MDC is truly community based and relies on generous support from organizations, foundations, donors, and community partners.

With much thanks,

Sandra Gabbard, Ph.D  
President/CEO
